PSEG Power Connecticut LLC
1 Atlantic Street
Bridgeport, CT 06604-5513

RE: **PETITION NO. 1218** – PSEG Power Connecticut LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the construction, maintenance, and operation of a new 485 megawatt (MW) dual fuel combined-cycle electric generating facility at the existing Bridgeport Harbor Station located at 1 Atlantic Street, Bridgeport, Connecticut. **D&M Plan Revision.**

Dear Mr. Hinckey:

The Connecticut Siting Council (Council) is in receipt of your correspondence dated June 29, 2017 regarding the revision to the Phase I and Phase II Development and Management (D&M) Plans for the above-referenced project that were approved by the Council on October 27, 2016 and December 22, 2016, respectively.

Pursuant to Regulations of Connecticut State Agencies §16-50j-62(b), your request to allow modifications of the underground utility system for the plant (to improve construction efficiencies and function); relocate the stormwater conveyance system to the perimeter of the development area (to allow for optimization of underground utilities and for easier operation and maintenance of the stormwater conveyance system); and update the water balance analysis (to minimize water use and wastewater flows) are hereby approved.

This approval applies only to the D&M Plan revision dated June 29, 2017. Any significant changes to the D&M Plan require advance Council notification and approval.

Thank you for your attention and cooperation.

Very truly yours,

Melanie Bachman/cw

Melanie Bachman
Executive Director

MB/MP

c: Council Members
