RE: **PETITION NO. 1224** – Woods Hill Solar, LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance and operation of a 20 Megawatt AC Solar Photovoltaic Electric Generating facility located at 90 and 101 Woods Hill Road, Pomfret, Connecticut.

Dear Attorney Hoffman:

The Connecticut Siting Council (Council) is in receipt of your request dated March 21, 2018 regarding the temporary change to typical work hours approved as part of the Development and Management (D&M) Plan for the above-referenced project that was approved by the Council on September 6, 2017.

Pursuant to Regulations of Connecticut State Agencies §16-50j-62(b), your request to work on Sunday, March 25, 2018 from 7:00 a.m. to 6:00 p.m. to perform environmental work on the site is hereby approved. The Sunday work hours are necessary to perform site stabilization through the installation of erosion control blankets and the establishment of swales and mulch berms.

This approval applies only to the request for the temporary change to work hours dated March 21, 2018. Any significant changes to the D&M Plan require advance Council notification and approval.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman
Executive Director

MB/CW

Re: Petition 1224 – Woods Hill Solar, LLC; Construction Hours

Dear Ms. Bachman:

I am writing on behalf of my client, Woods Hill Solar, LLC, in connection with the above-referenced Petition. This letter is a follow-up to prior correspondence to the Council regarding this site. Woods Hill Solar, LLC is writing this letter to request permission to perform environmental work on the site. This work would consist of a team of approximately 25 individuals performing work on the site as follows:

- 20 people for erosion and sediment control work; and
- 5 individuals responsible for management and safety.

Woods Hill Solar, LLC is requesting to perform this work from 7:00 a.m. to 6:00 p.m. on Sunday, March 25, 2018. There is an immediate need to perform site stabilization and Sunday, March 25, 2018 represents a valuable opportunity to enhance site environmental protections. The work would include installation of erosion control blankets with hand tools and light equipment and establishment of swales and mulch berms with light equipment; the work would not include any construction work not related to environmental protection enhancement.
