RE: **PETITION NO. 1238** - Eversource Energy declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed re-conductoring of 0.6 miles of its existing No. 1779 115-kilovolt (kV) electric transmission line between South Meadow Substation in Hartford and the east side of structure 3001 in East Hartford and for the proposed rebuilding of 4.6 miles of its existing No. 1779 electric transmission line within existing Eversource right of way extending from structure 3001.5 in East Hartford to South Windsor Junction in South Windsor, traversing the municipalities of Hartford, East Hartford, and South Windsor, Connecticut, and related transmission line structure and substation improvements.

Dear Ms. Taylor:

The Connecticut Siting Council (Council) is in receipt of your email correspondence of June 27, 2018 regarding the temporary change to work hours for the above-referenced Project that was approved by the Council on October 27, 2016.

Pursuant to Condition No. 3 of the Council's Decision on October 27, 2016, your request for an extension of construction work hours from 7 PM to 11 PM on June 27, 2018 for work at Structure 3005 in East Hartford is hereby approved. The additional work hours are necessary to complete drilling and foundation work in one day to comply with the US Army Corps of Engineers permit requirements to minimize impacts to the adjacent East Hartford flood control levee.

This approval applies only to the request for a temporary change to Project work hours in the email correspondence of June 27, 2018. Any significant changes to the project require advance Council notification and approval.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman
Executive Director

MB/RM

Subject: Petition No. 1238: 1779 Line extended works hours today (6/27)

Dear Melanie Bachman:

Eversource is requesting extended work hours today from 7 PM to 11 PM in order to install the foundation for Structure 3005 within Eversource's ROW. Per it's permit with the Army Corps of Engineers, the drilling and foundation must be complete on the same day to minimize any potential risks to the levee. This foundation is not adjacent to any residences.

The municipal officials of East Hartford have been notified of the extended work hours.

Please contact me with any questions or concerns.
