MINIMAL

Re: Petition No. 1240 – Wallingford Energy, LLC on behalf of the Town of Wallingford
Electric Division: Minor Changes to Transmission Structure 1640-3

Dear Ms. Bachman:

Pursuant to Section 16-50j-62(b)(1) of the Regulations of Connecticut State Agencies and in accordance with the Petition for Declaratory Ruling approved on August 4, 2016, for the above referenced Project, Wallingford Energy, LLC (“WE”) hereby provides written notification to the Connecticut Siting Council that structure 1640-3 has been relocated slightly west of the position reflected in the correspondence dated November 21, 2016 based on recent observations in the field regarding the actual location of a stormwater line. As may be observed in the enclosed routing map this a marginal shift that does not require that any additional property rights be obtained. Given the relatively minor adjustment of only a single structure location, impacts to the calculated EMF levels will be minimal and there are no required structural changes.

If you have any additional questions or wish to discuss please feel free to contact me at (636) 532-2200 or bpollpeter@lspower.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Brandon Pollpeter".

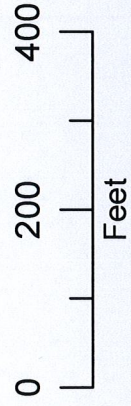

Brandon Pollpeter
