Re: PETITION NO. 1312 - Candlewood Solar LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance and operation of a 20 megawatt AC (26.5 megawatt DC) solar photovoltaic electric generating facility located on a 163 acre parcel at 197 Candlewood Mountain Road and associated electrical Interconnection to Eversource Energy's Rocky River Substation on Kent Road in New Milford, Connecticut.

Dear Attorney Bachman:

The statutory deadline for the Connecticut Siting Council (“Council”) to approve, modify, or disapprove Candlewood Solar, LLC’s (“Candlewood Solar”) Development and Management Plan (“D&M Plan”) is March 29, 2019.

On March 5, 2019, the Council sent a letter to Candlewood Solar requesting its consent to an extension to approve, modify, or disapprove Candlewood Solar’s D&M Plan until May 10, 2019, to allow the Council additional time to review the D&M Plan.

Candlewood Solar hereby consents to the Council’s extension request.

Enclosed are the original and fifteen (15) hard copies of this consent letter. Copies are also being provided to the parties on the service list.

Sincerely,

Paul R. Michaud
