Re: PETITION NO. 1312 - Candlewood Solar LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance and operation of a 20-megawatt AC (26.5-megawatt DC) solar photovoltaic electric generating facility located on a 163-acre parcel at 197 Candlewood Mountain Road and associated electrical Interconnection to Eversource Energy's Rocky River Substation on Kent Road in New Milford, Connecticut. **Interrogatory Responses - Council Set Two & Revised Council Set One**

Dear Attorney Bachman:

On March 7, 2019, the Connecticut Siting Council ("Council") presented Candlewood Solar, LLC ("Candlewood Solar") with Interrogatories (Set Two) due no later than March 21, 2019. On March 19, 2019, pursuant to §16-50j-22a of the Regulations of Connecticut State Agencies, Candlewood Solar requested a two-week extension of time to submit its responses to the Council's Interrogatories – Set Two. On March 19, 2019, the Council granted Candlewood Solar's request for an extension, and extended the due date for the responses to April 4, 2019.

Accordingly, Candlewood Solar, with the assistance from Wood Group and VHB (reviewed the responses for compliance with D&M and stormwater engineering practices in Connecticut), hereby submits its responses to the Council's Interrogatories – Set Two. Candlewood Solar also submits revised responses to the Council's Interrogatories – Set One.

Enclosed are the original and fifteen (15) copies of the responses. Copies are also being provided to the parties on the service list.

Sincerely,

A handwritten signature in blue ink that reads 'Paul R. Michaud'.

Paul R. Michaud
