Project Role:

Mr. Lindsay is a Director of Project Development within the Solar PV Grid-Tie group in Framingham, MA. He is responsible for development and implementation of commercial and utility scale solar PV projects in Massachusetts and across New England. Mr. Lindsay has experience in developing, permitting, and interconnecting solar PV projects across the Northeast, including Massachusetts. He also has extensive past experience in design and construction of large scale environmental remediation projects under CERCLA and Massachusetts Contingency Plan requirements.

Mr. Lindsay has expertise in the development, permitting, design and construction of commercial and utility scale solar PV projects, including conceptual design and development of solar PV project configurations, PPA development and negotiation, environmental permitting, and interconnection. Mr. Lindsay combines solar PV expertise with an extensive background in contaminated site assessment and remediation, and beneficial re-use. Mr. Lindsay drives solar PV development projects with municipalities, school systems, and commercial/industrial corporations.
