**Subject:** Candlewood Solar .Petition 1312

Dear Council Members:

My name is Carl M Dunham, Jr and I live at 195 Candlewood Mountain Road in New Milford, I own over 600 acres of land, which abuts this project on three sides, My property includes an operating farm, stables, bed and breakfast, wedding venue, and heliport with use of the adjacent Candlelight Farms Airport. I have lived on and worked the property since being born in 1943. I know the property being proposed for this facility intimately,

This proposal will in fact HAVE a substantial adverse environment impact. The full data of this Petition was only made available with its filing notwithstanding my repeated requests to remain informed..

It is most important that the siting counsel proceed with having a public hearing in New Milford to have an opportunity to visit the property first hand as well as to give concerned people the chance to give you their input, Thank you for your consideration,
