Re: PETITION NO. 1312 - Candlewood Solar LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance and operation of a 20 megawatt AC (26.5 megawatt DC) solar photovoltaic electric generating facility located on a 163 acre parcel at 197 Candlewood Mountain Road and associated electrical Interconnection to Eversource Energy's Rocky River Substation on Kent Road in New Milford, Connecticut. **Court Remand on Visibility**

Dear Attorney Bachman:

On April 11, 2019, the Connecticut Siting Council ("Council") presented Candlewood Solar, LLC ("Candlewood Solar") with Interrogatories. The Council set the due date of April 25, 2019 for responses to be submitted to these interrogatories.

Pursuant to §16-50j-22a of the Regulations of Connecticut State Agencies, Candlewood Solar respectfully requests until May 2, 2019 to submit its responses to the Council's Interrogatories. This extension is requested in order to provide full and complete responses, and is consistent with the Council's extension granted to the Town of New Milford.

Enclosed are the original and fifteen (15) hard copies of this request for extension. Copies are also being provided to the parties on the service list.

Sincerely,

MICHAUD LAW GROUP, LLC
