RE: **PETITION NO. 1323** - Windham Solar LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance and operation of three 2.0 Megawatt AC and two 1.0 Megawatt AC solar photovoltaic electric generating facilities on an approximate 43 acre parcel located at 134 Bilton Road, Somers, Connecticut.

Dear Mr. Little:

The Connecticut Siting Council (Council) is in receipt of your correspondence with attachments dated December 11, 2019 regarding compliance with Condition No. 1(g) of the Council's Declaratory Ruling of January 22, 2018 and Condition No. 1, in part, of the Council's Development and Management Plan (D&M Plan) decision of November 9, 2018 for the above-referenced project.

This acknowledgement applies only to the Phase II and III Environmental Report submitted with your correspondence of December 11, 2019. Please be advised that the November 9, 2018 D&M Plan decision Condition No. 1 requires the submission of the number of the solar panels per generating facility and output, final inverter design and electrical interconnection, and a vegetative maintenance plan. Any significant changes to the above-referenced project require advance Council notification and approval.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman

**Subject:** Petition No. 1323; Phase II and III Environmental Reports

Melanie,  
Condition 1 (g) of the approval for Petition No. 1323 (Town of Somers solar facilities) requires Windham Solar LLC to provide a copy of a Phase II environmental assessment. Please find attached a copy of both the Phase II as well as the Phase III, which documents the remediation work that was performed. Please confirm receipt and let me know if the Siting Council requires any additional documentation from Windham Solar LLC relating to this matter.
