**Re: Petition No. 1341—Durham Manufacturing Company Solar Photovoltaic Electric
Generating Facility**

Dear Ms. Bachman:

The purpose of this letter is to notify the Siting Council that construction activity associated with the above-referenced Durham Manufacturing Company solar photovoltaic electric generating facility has been completed.

Through the construction process, All-Points Technology Corporation (“APT”) has conducted regular compliance monitoring activities to confirm and document compliance with the Wetland and Vernal Pool Protection Plan provided as Appendix G to the above-referenced Petition. Since construction was completed in late autumn, a final compliance review is planned for early spring. A summary inspection report consistent with Section 6 of the Wetland and Vernal Pool Protection Plan will be submitted in the spring of 2019, following the final compliance inspection.

If you have any questions or need any additional information please do not hesitate to contact me at the telephone number listed above or Earl W. Phillips, Jr. at (860) 275-8220.

Sincerely

Emilee Mooney Scott
