**Re: Durham Manufacturing Company
Proposed Solar Array
Notice & Invitation to an Informational Meeting**

Dear

The Durham Manufacturing Company (DMC) is proposing a solar array to address some of its electricity needs in an environmentally sound manner. As a result, in January of 2018, DMC will be presenting a Petition for a Declaratory Ruling to the Connecticut Siting Council in support of the construction of a 1.35 MW ground mounted solar array south of Maiden Lane in Durham.

The array will be on the eastern portion of the DMC property located at 201 Main Street in Durham that is home to the DMC manufacturing facility. This property also abuts Maiden Lane. Please see the attached site plan we have provided for your convenience.

As part of DMC's commitment to being a good neighbor we are inviting you to an informational meeting where we will present and discuss the project and answer any questions you may have.

You are invited to attend the meeting which will take place on Thursday, December 14, 2017, at 7:00 p.m. in the meeting room at the Durham Public Library, located at 7 Maple Avenue in Durham.

17397432v1

Robinson+Cole

November 28, 2017

Page 2

The solar array will fall under the jurisdiction of the Connecticut Siting Council ("Council") pursuant to the provisions of Section 16-50i et seq. of the Connecticut General Statutes. We mention this because the Petition for a Declaratory Ruling will describe the project in great detail and be closely reviewed by the Council (and its technical staff) whose decision is exclusive as to (and pre-empts) local land use authority.

We would very much appreciate your RSVP if you plan on attending. Please RSVP to and direct any questions you may have to my colleague and Senior Environmental Analyst Todd Berman as noted below.
