Subject: Petition No. 1348 – West Farms Mall Construction Drawings

Melanie,

Good afternoon. Hope all is well with you.

Per the Siting Council's response to our Petition No. 1348, attached are construction drawings for the solar PV facility located at West Farms Mall, 1500 New Britain Avenue, West Hartford and 500 South Road, Farmington, CT. The only minor change from our original design is a slight adjustment of the height of some of the canopy structures to accommodate an existing electric utility easement. We are in the process of submitting documentation for local permits and intend to begin construction upon receipt.

We also attached the Siting Council's Approval Letter for reference.

Feel free to reach out with any questions.

Thank you,

Brendan Canavan
