Mr. Robert Stein Chairman
The Connecticut Siting Council
Ten Franklin Square
New Britain, CT 06051

Re: PETITION NO. 1073 - The United Illuminating Company petition for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for all transmission remediation activities pursuant to the North American Electric Reliability Corporation (NERC) facility ratings recommendation to industry

Dear Chairman Stein:

The United Illuminating Company ("UI") received acknowledgement from the Connecticut Siting Council ("Council") on August 22, 2013 that the UI proposed transmission remediation activities pursuant to the North American Electric Reliability Corporation (NERC) facility ratings recommendation, and pursuant to Connecticut General Statutes Section 16-50k, would not require a Certificate of Environmental Compatibility and Public Need.

UI submits this letter to provide notice that construction for this project has completed in accordance with the Council's conditions. Enclosed are this original and two (2) copies of this Notice of Completion.

Thank you for your attention to this matter. If you have any questions or comments, please call me at (203) 499-2586 .

Sincerely,

Amy Hicks, Analyst
The United Illuminating Company
