RE: **PETITION NO. 1108** - American Tower Corporation and New Cingular Wireless PCS, LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the expansion of an existing telecommunications facility located at 668 Jones Hill Road, West Haven, Connecticut.

Dear Attorney Laub:

The Connecticut Siting Council (Council) is in receipt of your correspondence dated July 21, 2017, regarding minor project changes to the above-referenced declaratory ruling that was approved by the Council on August 21, 2014, and modified by the Council on October 2, 2014 to accommodate a shared generator.

The minor project changes include decreasing the number of antennas to be installed at the 125-foot level of the tower from twelve to three and relocating the previously approved shared generator from the southwest corner of the compound to the northeast corner of the compound to optimize available ground space.

The minor project changes outlined in your July 21, 2017 correspondence are hereby approved. This approval applies only to the minor project changes detailed in your July 21, 2017 correspondence. Any significant changes to the project require advance Council notification and approval.

Thank you for your attention and cooperation.

Very truly yours,

Melanie A. Bachman
Executive Director
