Re: Petition No. 1108 - American Tower Corporation and
New Cingular Wireless PCS, LLC - Request for Modification
668 Jones Hill Road, West Haven, Connecticut

Dear Ms. Bachman:

At its meeting on August 21, 2014, the Council approved an expansion of the Facility at 668 Jones Hill Road, West Haven, in order to allow collocation at the American Tower Corporation ("ATC") site by New Cingular Wireless PCS, LLC ("AT&T"). The approval provided for installation of AT&T's antennas on the tower and an equipment shelter and generator within an expanded compound area.

ATC has now determined that a generator suitable for sharing by all tenants at the site should be installed. The proposed generator would be located within the expanded compound area. The AT&T shelter would be realigned to take into account the proposed change. No change to the approved fence line would be required, and there would be no effect on removal of vegetation, particularly the large ash tree identified for retention. Enclosed is a drawing reflecting the proposed modification.

ATC respectfully suggests that the installation of a single generator advances the public interest in reliable wireless service with minimal environmental effect, and requests the Council's review and approval of this modification.
