Re: PETITION NO. 1120 – The United Illuminating Company petition for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed modifications to the Hawthorne Substation located at 180 Hawthorne Drive, Fairfield, Connecticut.

Dear Ms. Bachman and the Connecticut Siting Council,

Intervenor, Arthur Tournas, would like to ask The Siting Council if they would consider including a walk thru around the UI site on the South/West side (back of Sub-Station) via three abutter's back yards during the Scheduled Site visit on March 31st at 2pm. The 5 minute walk thru would enter the property of 186 Schiller Rd from the rear of UI's property,(location of the proposed modification) continue to the property at 172 Schiller Rd ,continue to the property of 274 Hawthorne Dr and exit to Hawthorne Dr, to the entrance to the Sub Station.

A copy of a map showing the properties is attached. The route is marked in BLACK.

If letters of permission from the property owners are needed, they can be provided.

I will wait to hear back from you if The Connecticut council will consider this.

Truly yours,

Arthur Tournas
