TO: Parties & Intervenors

FROM: Melanie Bachman, Acting Executive Director *MAB*

RE: **PETITION NO. 1120** – The United Illuminating Company petition for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed modifications to the Hawthorne Substation located at 180 Hawthorne Drive, Fairfield, Connecticut.

During a public hearing of the Connecticut Siting Council (Council) held on March 31, 2015, the Council ruled on the following requests:

1. Intervenor Arthur Tournas request for meeting with UI, dated March 13, 2015.

This request was denied as an improper request. The Council cannot compel parties to a proceeding to have a meeting.

2. Intervenor Arthur Tournas request for walk through of abutting properties, dated March 19, 2015.

Due to hazardous conditions with snow cover during the field review that were inconducive to the walk through of abutting properties, this request was denied and rendered moot.

The Connecticut Siting Council (Council) shall continue the evidentiary hearing for the above-referenced proceeding on April 7, 2015, in Hearing Room One, Ten Franklin Square, New Britain, Connecticut, beginning at 1:00 p.m.

The hearing shall commence with the continued cross examination of the petitioner by the Town of Fairfield and the Council and thereafter with the appearance of the intervenors for cross-examination by the Council and the petitioner.

If you have any questions about Council procedures, please do not hesitate to contact me at the Council office at 860-827-2935.

Thank you.
