Re: **PE1133-VER-20150520 – Cellco Partnership d/b/a Verizon Wireless  
31 Chestnut Hill Road, Colchester, Connecticut**

Dear Ms. Bachman:

On July 2, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to install antennas and associated equipment at the telecommunications facility at 31 Chestnut Hill Road in Colchester, Connecticut.

As a condition of the approval, Cellco was required to provide the Council with a letter stating that the recommendations made in the structural report were complied with. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification**

**Project:** Verizon Colchester 3  
31 Chestnut Hill Road, Colchester, CT

**Tower Owner:** SBA Communications  
8051 Congress Avenue, Boca Raton, FL

**Engineer:** FDH Engineering, Inc.  
6521 Meridien Drive, Raleigh, NC

**Centek Project No.:** 16003.22

**CSC Exempt Mod Reference No.:** PE1133-VER-20150520

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by FDH Engineering, Inc. (FDH Project Number: 15BEZN1400 (R1)):

- Review of the FDH Engineering, Inc. Structural Analysis dated 03/11/15.
- Field observations by Centek Engineering personnel on 08/19/16 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The modification design prepared by FDH Engineering, Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE  
Principal - Structural
