Re: **PE1133-VER-20150528 – Cellco Partnership d/b/a Verizon Wireless  
8 Grand Street, East Lyme (Niantic), Connecticut**

Dear Ms. Bachman:

On July 10, 2015, the Siting Council approved Cellco's Sub-Petition for a Declaratory Ruling for modifications to the existing State Police telecommunications facility located at 8 Grand Street in East Lyme, Connecticut. Cellco's modifications involved the installation of antennas and remote radio heads on the existing tower and equipment within the facility compound.

As a condition of the Council's approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the Sub-Petition. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**RE: Tower Modification Certification**

**Project:** Verizon Niantic SC CT  
8 Grand Street Niantic, CT 06357

**Tower Owner:** Town Of East Lyme, 6-8 Grand Street Niantic, CT 06357

**Engineer:** Carlo F. Centore, P.E of Centek Engineering, Inc. 63-2 North Branford Rd, Branford, CT 06405

**APT Project No.:** CT141SC6020 Cheshire

**CSC Exempt Mod Reference No.:** PE113-VER-20150528

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Centek Engineering, Inc.:

- Review of Centek Engineering Structural Analysis (Centek project #14298.000) dated 4/29/15;
- Review of Centek Engineering Construction Drawings (REV1) dated 06/17/16;
- Review of Centek and Material Testing Group's Final Statement of Special Inspections dated 11/04/16;
- Email correspondence between Centek Engineering and Verizon dated 6-22-16);
- Field Observations by APT personnel on 2/14/17 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The structural analysis prepared by Centek demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution

Sincerely,  
All-Points Technology Corporation, P.C.

Scott M. Chasse, P.E.  
Principal
