Re: **PE1133-VER-20160912 – Cellco Partnership d/b/a Verizon Wireless  
330 Pokorny Road, Haddam, Connecticut**

Dear Ms. Bachman:

On October 11, 2016, the Siting Council approved the above-referenced Eligible Facilities Request for modifications to the existing telecommunications facility at 330 Pokorny Road in Haddam, Connecticut. Cellco's modifications involved the installation of antennas and remote radio heads.

As a condition of its approval, Cellco was required to provide the Council with a Rev. G Structural Analysis Report (the "Rev. G Report"). The Rev. G Report was filed with the Council on September 5, 2017. The Council's approval also required the submission of a letter stating that the tower modifications were installed in compliance with the recommendations made in the Rev. G Report. Attached is a Professional Engineer's Tower Modification Certification letter verifying compliance with the Rev. G Report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**RE: PE1133-VER-20160912- Tower Modification Certification**

**Project:** Verizon Higganum South CT  
330 Pokorny Road, Haddam, CT 06441

**Tower Owner:** Eversource

**Engineer:** Paul J. Ford and Company

**Nexius Project No.:** 300027

**Paul J. Ford Project No.:** 24317-0014.001.8700\_R1

Dear Ms. Jamieson,

Nexius Solutions Inc. is providing this "Tower Modification Certification" regarding the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Paul J. Ford and Company.:

- Review of Paul J. Ford and Company Structural Analysis (project # 24317-0014.001.8700\_R1) dated 08/22/17.
- Field Observations by Nexius Solutions Inc. personnel on 11/01/17 of the completed modifications which determined all modifications were installed in general compliance with the recommendation of the aforementioned structural analysis.

The structural analysis prepared by Paul J. Ford and Company demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above.

Sincerely,  
Nexius Solutions Inc.
