Re: **PE1133-VER-20151222 – Cellco Partnership d/b/a Verizon Wireless  
250 Meriden Waterbury Turnpike, Southington, Connecticut**

Dear Ms. Bachman:

On February 3, 2016, the Siting Council approved Cellco's Eligible Facilities Request to install antennas and associated equipment at 250 Meriden Waterbury Turnpike in Southington, Connecticut.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that its installation complied with the recommendations of the structural analysis. Attached is a Professional Engineer's certification letter verifying that the installation was completed according to that structural report

I can also report that construction activity associated with the modifications approved in PE1133-VER-20151222 has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**RE: PE1133-VER-20151222- Tower Modification Certification**

**Project:** Verizon Southington I-691 CT  
250 Meriden-Waterbury Turnpike Southington, CT 06489

**Tower Owner:** Crown Castle

**Engineer:** Jacobs Engineering Group Inc.

**Nexius Project No.:** 380204\_Southington I-691\_CT

**Jacobs Engineering Group Inc. Project No.:** 1148654

Dear Ms. Jamieson,

Nexius Solutions Inc. is providing this "Tower Modification Certification" regarding the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Jacobs Engineering Group Inc.:

- Review of Jacobs Engineering Group Inc's Structural Analysis (project # 1148654) dated 11/05/15.
- Review of Jacobs Engineering Group Inc's Modification drawings dated 11/05/15.
- Field Observations by Nexius Solutions Inc. personnel on 06/14/17 of the completed modifications which determined all modifications were installed in general compliance with the recommendation of the aforementioned structural analysis.

The structural analysis prepared by Jacobs Engineering Group Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,  
Nexius Solutions Inc.
