Re: PE 1133-VER-20150818 – Cellco Partnership d/b/a Verizon Wireless Sub-Petition for Declaratory Ruling for Approval of an Eligible Facility Request for Modifications to an Existing Telecommunications Facility Located at 28 Great Oak Lane, Redding, Connecticut

Dear Ms. Bachman:

On October 2, 2015, the Council approved the above-referenced eligible facility request for the installation of antennas and associated equipment on the existing telecommunications tower at 28 Great Oak Lane in Redding. Consistent with several other recent filings, Cellco Partnership d/b/a Verizon Wireless (“Cellco”) has decided to install a 12’ x 26’ shelter, rather than the 12’ x 30’ shelter originally approved. Attached is a revised set of project plans showing the smaller equipment shelter.

Cellco respectfully submits that, even with the smaller equipment shelter, the proposed base station modifications qualify as an eligible facilities request under the Federal Communications Commission Report and Order.
