Dear Attorney Baldwin:

The Connecticut Siting Council (Council) hereby approves your Eligible Facilities Request (EFR) to install antennas and associated equipment at the above-referenced facility pursuant to the Federal Communications Commission Wireless Infrastructure Report and Order, with the following conditions:

1. Prior to Crown Castle's tower extension and AT&T's antenna installation, the proposed tower reinforcement shall be installed in accordance with the Structural Modification Report prepared by Black and Veatch, dated January 9, 2019 and stamped and signed by Joshua J. Riley;
2. Within 45 days following completion of equipment installation, Crown Castle shall provide documentation certified by a Professional Engineer that the installation complied with the recommendations of the Structural Modification Report;
3. Approval of any minor changes shall be delegated to Council staff;
4. Within 45 days after completion of construction, the Council shall be notified in writing that construction has been completed;
5. Any nonfunctioning antenna and associated antenna mounting equipment on this facility owned and operated by AT&T shall be removed within 60 days of the date the antenna ceased to function;
6. The validity of this action shall expire one year from the date of this letter; and
7. The Petitioner may file a request for an extension of time beyond the one year deadline provided that such request is submitted to the Council not less than 60 days prior to the expiration.

This decision is under the exclusive jurisdiction of the Council and is not applicable to any other modification or construction. All work is to be implemented as specified in the EFR dated February 15, 2019. Any minor changes to the eligible facility request require advance notification and approval.
