Re: **PE1133-VER-20150805 – Cellco Partnership d/b/a Verizon Wireless
35 South Bartlett Road, Waterford, Connecticut**

Dear Ms. Bachman:

On September 28, 2015, the Siting Council approved the above-referenced Eligible Facilities Request for modifications to the existing telecommunications facility at 35 South Bartlett Road in Waterford, Connecticut. Cellco's modifications involved the installation of antennas and remote radio heads.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the Sub-Petition filing. Attached is a Professional Engineer's evaluation letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Notice of Completion Certification

Project: Quaker Hill CT
35 South Bartlett Road, Waterford, CT 06375

Engineer: Derek J. Creaser, P.E.
Hudson Design Group LLC
1600 Osgood St. Building 20 North, Suite 3090
North Andover, MA 01845

CSC Exempt Mod Reference No.: PE1133-VER-20150805

Dear Mr. Parks,

HDG is providing this "Notice of Completion Certification" with regard to the wireless telecommunications facility installation at the above referenced project.

The following are the basis for submitting compliance with the Construction Drawings prepared by Hudson Design Group LLC:

- Review of the FDH Velocitel Structural Analysis dated April 21, 2015
- Field Observations by Hudson Design Group personnel on July 5, 2017 of the completed installation which was installed in general compliance with the aforementioned Structural Analysis.

The structural analysis prepared by Paul J. Ford and Company demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the document(s) referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Respectfully Submitted,
Hudson Design Group LLC

Derek J. Creaser, P.E.
