Right-of-Way Description

Right-of-Way Land Use

- Maintained transmission corridor
- Agricultural land

Wetlands, Watercourses, and Waterbodies

- Wetlands - W37, W38
- Wetland Cover Type - PEM, PSS
- Watercourses - Plum Gulley Brook (perennial), unnamed perennial within W37

Wetland and Watercourse Crossings

- W37 - construction mats for access and work pad

Vegetation on Transmission Corridor

- Scrub-shrub
- Agricultural fields

Access

- Existing poles 6244, 6243, 6242, 6241, 6240: Off Sullivan Avenue
- Existing pole 6239: Existing access off Sandstone Drive

Right-of-Way Width

- Utility ROW is approximately 300 feet

PSS: Palustrine Shrub-Scrub
PEM: Palustrine Emergent
POW: Paulstrine Open Water
PFO: Paulstrine Forested
