RE: **DOCKET 370A-MR** -The Connecticut Light & Power Company Certificate of Environmental Compatibility and Public Need for the Manchester Substation to Meekville Junction Circuit Separation Project in Manchester, Connecticut. Development and Management Plan Changes.

Dear Mr. Carberry:

At a public meeting of the Connecticut Siting Council (Council) held on December 15, 2011, the Council considered and approved revisions to the Development and Management (D&M) Plan for the Manchester to Meekville Junction project. The proposed revisions include the identification of conductor pulling sites and a new 115-kV line angle structure.

This approval applies only to the D&M Plan Revisions submitted on November 30, 2011. Any changes to the D&M Plan require advance Council notification and approval.

Please be advised that deviations from this plan are enforceable under the provisions of the Connecticut General Statutes § 16-50u. Enclosed is a copy of the staff report on this D&M Plan, dated December 15, 2011.

Thank you for your attention and cooperation.

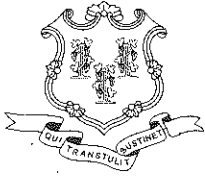

Very truly yours,

Robert Stein *RS*
Chairman

Enclosure: Staff Report, dated December 15, 2011

Docket No. 370A_MR

The Connecticut Light and Power Company

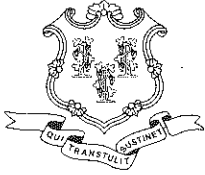

Manchester to Meekville Junction Project

December 15, 2011

On November 30, 2011, The Connecticut Light and Power Company (CL&P) submitted a request for revisions to the Development and Management (D&M) Plan for the Manchester to Meekville Junction project. The proposed revisions include the identification of proposed conductor pulling sites and a new 115-kV line angle structure.

CL&P proposes three conductor pulling sites and one new angle structure for the project in Manchester. All proposed pulling sites would be within the CL&P right-of way, two would be located south of Tolland Turnpike and one would be located east of Meekville Junction. The proposed angle structure (#6275A) would be located east of Meekville Junction within the center of the transmission line right-of-way.

The proposed revisions are consistent with the D&M Plan change process outlined in Appendix F of the D&M Plan.
