**AFFIDAVIT REGARDING BALLOON FLOAT**

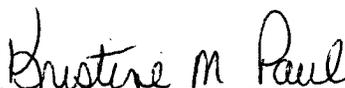

I, Michael A. Koperwhats II, do hereby declare and state:

1. I am over the age of 18 years and understand the obligation of making a statement under oath.
2. I am a Planner with Vanasse Hangen Bristlin, Inc. (VHB).
3. On Friday November, 12, 2010 from 9:00 a.m. until 4:45 p.m., I supervised a balloon float at the site of the proposed telecommunication facility at 8 Barnes Road, Canaan (Falls Village), Connecticut to obtain visual data during "leaf off" conditions of the tower proposed by New Cingular Wireless PCS, LLC (AT&T) in their Application for a Certificate of Environmental Compatibility and Public Need to the Connecticut Siting Council ("AT&T's Application").
4. The height at which the 4'± diameter balloon was flown was 150 feet at the site of the proposed telecommunication facility.

5. Weather conditions during the balloon float included temperatures of approximately 55 degrees Fahrenheit, sunny skies, and calm winds.
6. During the time of the balloon float, I did not have to replace the balloon.
7. Other than time for a drive-by reconnaissance along nearby streets to observe the balloon, I was personally at the site to supervise the balloon float.
8. During my field observation, I preformed a drive-by reconnaissance along Route 7, Page Road, Route 126, Under Mountain Road, Music Mountain Road, and Barnes Road to determine if the balloon was visible during leaf-off conditions and to confirm VHB's Visual Resource Evaluation contained in AT&T's Application in Attachment 6.
9. The visual data collected from this balloon float will be used to evaluate potential visibility of the proposed tower during leaf-off conditions.

ATTEST:   
Printed Name: MICHAEL A. KOPROWSKI

Subscribed and sworn to before me this 17 day of December, 2010.
