Re: Docket 412 – D&M Plan Review
SBA Towers III Development and Management Plan
Wewaka Brook Road, Bridgewater, Connecticut

Dear Ms. Roberts:

On behalf of SBA Towers III (“SBA”) and in furtherance of our letter dated July 19, 2012, enclosed please find an original and fifteen copies of this letter and final stamped and signed construction drawings for the approved bridge prepared by FDH, Inc. dated July 25, 2012. Two full-sized sets will follow under separate cover. As you will recall, we are respectfully requesting that the bridge design be reviewed at the Council’s August 9th meeting and, if acceptable, that aspect of the D&M Plan approved. The other elements of the D&M plan including access drive and compound improvements would then be reviewed and approved at a later time. This phased approach to the D&M Plan will of course allow the Council full review of the Facility while allowing SBA to progress with project planning and implementation related to the bridge during its limited window for construction which closes at the end of August.

Thank you for your consideration of the above. Please do not hesitate to contact me should you have any questions or need anything further.

Very truly yours,

Daniel M. Laub
