RE: **DOCKET NO. 449** - Message Center Management Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at 186 Black Rock Turnpike, Redding, Connecticut.
D&M Plan Revision.

Dear Attorney Baldwin:

The Connecticut Siting Council (Council) is in receipt of your correspondence dated March 6, 2017 regarding Verizon's revision to the Development and Management (D&M) Plan for the above-referenced site that was initially approved by the Council on September 17, 2015.

Pursuant to Regulations of Connecticut State Agencies §16-50j-77(b), your request to change the model of Verizon's antennas and remote radio heads at this site is hereby approved with the condition that a revised structural analysis report stamped by a Professional Engineer duly licensed in the State of Connecticut that takes into account the municipal emergency services antenna loading identified in the August 19, 2015 D&M Plan and December 18, 2015 D&M Plan Revision be submitted.

This approval applies only to the D&M Plan revision dated March 6, 2017. Any significant changes to the D&M Plan require advance Council notification and approval.

Please be advised that deviations from this plan are enforceable under the provisions of the Connecticut General Statutes § 16-50u. Furthermore, the Certificate Holder is responsible for reporting requirements pursuant to Regulations of Connecticut State Agencies Section 16-50j-77.

Thank you for your attention and cooperation.

Very truly yours,

Melanie A. Bachman
Executive Director
