**Re: Docket No. 465** – The United Illuminating Company application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a 115/13.8-kilovolt (kV) replacement substation facility located on an approximately 1.5 acre portion of two adjoining UI-owned parcels directly adjacent to UI's existing Baird Substation, 1770 Stratford Avenue, Stratford, Connecticut, and related transmission structure and interconnection improvements – **Request for Modification**

Dear Chairman Stein:

The United Illuminating Company (“UI”) submits this Request for Modification pursuant to Order 1 of the Connecticut Siting Council’s (“Council”) April 28, 2016 Decision in the above captioned Application.

On page 20, as part of section 4.6. of the submitted D&M Plan, UI states “[t]he fencing will be equipped with green opaque winged slats to provide increased physical security and visual screening.” Two Roads Brewing Company has requested a change in slat color to grey, per the attached email dated July 11, 2017.

Please do not hesitate to contact me with any questions or concerns in regard to this request at (203) 499-2864. Thank you for your consideration.

Sincerely,

James R. Morrissey

Hi Martin, thanks for sending these to us. I think you guys are right, the grey is preferred. Would we be able to plant some smaller plants in front of it such as rododendrums? Either way, let's proceed with the gray. The project appears to be in full swing now, are you still projecting an 18 month completion? Best regards to all the UI'ers.

Brad

**Subject:** Fence Slats color examples

At our recent construction meeting we talked about the fence slat color and thought it might be a good time to confirm the color. UI has built this fence at multiple substations with different color slats. The approved color is Forest Green, but we have also used grey and black. Please let us know if you would like to visit or drive by any of these locations.

The consensus from the team is that of the three, the grey would be best suited in this area.

Thanks,  
Martin
