Form Locator (FL) 1 - (Untitled) Provider Name, Address, and Telephone Number

Required. The minimum entry is the provider name, city, State, and ZIP code. The post office box number or street name and number may be included. The State may be abbreviated using standard post office abbreviations. Five or nine-digit ZIP codes are acceptable. This information is used in connection with the Medicare provider number (FL 51) to verify provider identity. Phone and/or Fax numbers are desirable.

FL 2 – Pay-to Name, address, and Secondary Identification Fields

Not Required. *If submitted, the data will be ignored.*

FL 3a - Patient Control Number

Required. The patient's unique alpha-numeric control number assigned by the provider to facilitate retrieval of individual financial records and posting payment may be shown if the provider assigns one and needs it for association and reference purposes.

FL 3b – Medical/Health Record Number

Situational. The number assigned to the patient's medical/health record by the provider (not FL3a).

FL 4 - Type of Bill

Required. This four-digit alphanumeric code gives three specific pieces of information after a leading zero. **CMS will ignore the leading zero. CMS will continue to process three specific pieces of information.** The second digit identifies the type of facility. The third classifies the type of care. The fourth indicates the sequence of this bill in this particular episode of care. It is referred to as a "frequency" code.

Code Structure

3 Outpatient (For non-PPS HHAs, includes HHA visits under a Part A plan of treatment and use of HHA DME under a Part A plan of treatment). For home health agencies paid under PPS, CMS determines from which Trust Fund, Part A or Part B. Therefore, there is no need to indicate Part A or Part B on the bill.

75.3 - Form Locators 31-41

(Rev. 1395, Issued: 12-14-07, Effective: 01-01-08, Implementation: 01-07-08)

FLs 31, 32, 33, and 34 - Occurrence Codes and Dates

Situational. Required when there is a condition code that applies to this claim.

GUIDELINES FOR OCCURRENCE AND OCCURRENCE SPAN UTILIZATION

Due to the varied nature of Occurrence and Occurrence Span Codes, provisions have been made to allow the use of both type codes within each. The Occurrence Span Code can contain an occurrence code where the "Through" date would not contain an entry. This allows as many as 10 Occurrence Codes to be utilized. With respect to Occurrence Codes, complete field 31a - 34a (line level) before the "b" fields. Occurrence and Occurrence Span codes are mutually exclusive. An example of Occurrence Code use: A Medicare beneficiary was confined in hospital from January 1, 2005 to January 10, 2005, however, his Medicare Part A benefits were exhausted as of January 8, 2005, and he was not entitled to Part B benefits. Therefore, Form Locator 31 should contain code A3 and the date 010805.

The provider enters code(s) and associated date(s) defining specific event(s) relating to this billing period. Event codes are two alpha-numeric digits, and dates are six numeric

digits (MMDDYY). When occurrence codes 01-04 and 24 are entered, the provider must make sure the entry includes the appropriate value code in FLs 39-41, if there is another payer involved. Occurrence and occurrence span codes are mutually exclusive. When FLs 36 A and B are fully used with occurrence span codes, FLs 34a and 34b and 35a and 35b may be used to contain the "From" and "Through" dates of other occurrence span codes. In this case, the code in FL 34 is the occurrence span code and the occurrence span "From" dates is in the date field. FL 35 contains the same occurrence span code as the code in FL 34, and the occurrence span "Through" date is in the date field. Other payers may require other codes, and while Medicare does not use them, they may be entered on the bill if convenient.

FLs 35 and 36 - Occurrence Span Code and Dates

Required For Inpatient.

The provider enters codes and associated beginning and ending dates defining a specific event relating to this billing period. Event codes are two alpha-numeric digits and dates are shown numerically as MMDDYY.

Code Structure

Code	Title	Definition
70	Qualifying Stay Dates	(Part A claims for SNF level of care only.) The From/Through dates for a hospital stay of at least 3 days that qualifies the patient for payment of the SNF level of care services billed on this claim.

Code	Title	Definition
70	Non-utilization Dates (For Payer Use on Hospital Bills Only)	The From/Through dates during a PPS inlier stay for which the beneficiary has exhausted all regular days and/or coinsurance days, but which is covered on the cost report.
71	Hospital Prior Stay Dates	(Part A claims only.) The From/Through dates given by the patient of any hospital stay that ended within 60 days of this hospital or SNF admission.
72	First/Last Visit	The actual dates of the first and last visits occurring in this billing period where these dates are different from those in FL 6, Statement Covers Period.
74	Non-covered Level of Care	The From/Through dates for a period at a non-covered level of care in an otherwise covered stay, excluding any period reported with occurrence span codes 76, 77, or 79. Codes 76 and 77 apply to most non-covered care. Used for leave of absence, or for repetitive Part B services to show a period of inpatient hospital care or outpatient surgery during the billing period. Also used for HHA or hospice services billed under Part A, but not valid for HHA under PPS.
75	SNF Level of Care	The From/Through dates for a period of SNF level of care during an inpatient hospital stay. Since QIOs no longer routinely review inpatient hospital bills for hospitals under PPS, this code is needed only in length of stay outlier cases (code “60” in FLs 24-30). It is not applicable to swing-bed hospitals that transfer patients from the hospital to a SNF level of care.
76	Patient Liability	The From/Through dates for a period of non-covered care for which the provider is permitted to charge the beneficiary. Codes should be used only where the FI or the QIO has approved such charges in advance and the patient has been notified in writing 3 days prior to the “From” date of this period. (See

Code	Title	Definition
		occurrence codes 31 and/or 32.)
77	Provider Liability- Utilization Charged	The From/Through dates of a period of care for which the provider is liable (other than for lack of medical necessity or custodial care). The beneficiary's record is charged with Part A days, Part A or Part B deductible and Part B coinsurance. The provider may collect the Part A or Part B deductible and coinsurance from the beneficiary.
78	SNF Prior Stay Dates	(Part A claims only.) The From/Through dates given to the hospital by the patient of any SNF stay that ended within 60 days of this hospital or SNF admission. An inpatient stay in a facility or part of a facility that is certified or licensed by the State solely below a SNF level of care does not continue a spell of illness and, therefore, is not shown in FL 36.
79	Payer Code	THIS CODE IS SET ASIDE FOR PAYER USE ONLY. PROVIDERS DO NOT REPORT THIS CODE.
M0	QIO/UR Stay Dates	If a code "C3" is in FL 24-30, the provider enters the From and Through dates of the approved billing period.
M1	Provider Liability-No Utilization	Code indicates the From/Through dates of a period of non-covered care that is denied due to lack of medical necessity or as custodial care for which the provider is liable. The beneficiary is not charged with utilization. The provider may not collect Part A or Part B deductible or coinsurance from the beneficiary.
M2	Dates of Inpatient Respite Care	From/Through dates of a period of inpatient respite care for hospice patients.
M3	ICF Level of Care	The From/Through dates of a period of intermediate level of care during an inpatient hospital stay
M4	Residential Level of Care	The From/Through dates of a period of residential level of care during an inpatient

FL 37 - (Untitled)

Not used. Data entered will be ignored.

FL 38 - Responsible Party Name and Address

Not Required. For claims that involve payers of higher priority than Medicare.

FLs 39, 40, and 41 - Value Codes and Amounts

Required. Code(s) and related dollar or unit amount(s) identify data of a monetary nature that are necessary for the processing of this claim. The codes are two alpha-numeric digits, and each value allows up to nine numeric digits (0000000.00). Negative amounts are not allowed except in FL 41. Whole numbers or non-dollar amounts are right justified to the left of the dollars and cents delimiter. Some values are reported as cents, so the provider must refer to specific codes for instructions.

If more than one value code is shown for a billing period, codes are shown in ascending numeric sequence. There are four lines of data, line "a" through line "d." The provider uses FLs 39A through 41A before 39B through 41B (i.e., it uses the first line before the second). **Note that codes 80-83 are only available for use on the UB-04.**

04	Inpatient Professional Component Charges Which Are Combined Billed	The sum of the inpatient professional component charges that are combined billed. Medicare uses this information in internal processes and also in the CMS notice of utilization sent to the patient to explain that Part B coinsurance applies to the professional component. **(Used only by some all-inclusive rate hospitals.)**

Code	Title	Definition
05	Professional Component Included in Charges and Also Billed Separately to Carrier	(Applies to Part B bills only.) Indicates that the charges shown are included in billed charges FL 47, but a separate billing for them will also be made to the carrier. For outpatient claims, these charges are excluded in determining the deductible and coinsurance due from the patient to avoid duplication when the carrier processes the bill for physician's services. These charges are also deducted when computing interim payment. The hospital uses this code also when outpatient treatment is for mental illness, and professional component charges are included in FL 47.
06	Medicare Part A and Part B Blood Deductible	The product of the number of un-replaced deductible pints of blood supplied times the charge per pint. If the charge per pint varies, the amount shown is the sum of the charges for each un-replaced pint furnished. If all deductible pints have been replaced, this code is not to be used. When the hospital gives a discount for un-replaced deductible blood, it shows charges after the discount is applied.

75.4 - Form Locator 42

(Rev.1395, Issued: 12-14-07, Effective: 01-01-08, Implementation: 01-07-08)

FL 42 - Revenue Code

Required. The provider enters the appropriate revenue codes from the following list to identify specific accommodation and/or ancillary charges. It must enter the appropriate numeric revenue code on the adjacent line in FL 42 to explain each charge in FL 47. Additionally, there is no fixed "Total" line in the charge area. The provider must enter revenue code 0001 instead in FL 42. Thus, the adjacent charges entry in FL 47 is the sum of charges billed. This is the same line on which non-covered charges, in FL 48, if any, are summed. To assist in bill review, the provider must list revenue codes in ascending numeric sequence and not repeat on the same bill to the extent possible. To limit the number of line items on each bill, it should sum revenue codes at the "zero" level to the extent possible.

The biller must provide detail level coding for the following revenue code series:

0290s - Rental/purchase of DME

0304 - Renal dialysis/laboratory

0330s - Radiology therapeutic

0367 - Kidney transplant

0420s - Therapies

0520s - Type or clinic visit (RHC or other)

0550s - 590s - home health services

0624 - Investigational Device Exemption (IDE)

0636 - Hemophilia blood clotting factors

0800s - 0850s - ESRD services

9000 - 9044 - Medicare SNF demonstration project

Zero level billing is encouraged for all other services; however, an FI may require detailed breakouts of other revenue code series from its providers.

NOTE: RHCs and FQHCs, in general, use revenue codes 052X and 091X with appropriate subcategories to complete the Form CMS-1450. The other codes provided are not generally used by RHCs and FQHCs and are provided for informational purposes. Those applicable are: 0025-0033, 0038-0044, 0047, 0055-0059, 0061, 0062, 0064-0069, 0073-0075, 0077, 0078, and 0092-0095.

NOTE: Renal Dialysis Centers bill the following revenue center codes at the detailed level:

0304 - rental and dialysis/laboratory,

0636 - hemophilia blood clotting factors,

0800s thru 0850s - ESRD services.

The remaining applicable codes are 0025, 0027, 0031-0032, 0038-0039, 0075, and 0082-0088.

NOTE: The Hospice uses revenue code 0657 to identify its charges for services furnished to patients by physicians employed by it, or receiving compensation from it. In conjunction with revenue code 0657, the hospice enters a physician procedure code in the right hand margin of FL 43 (to the right of the dotted line adjacent to the revenue code in FL 42). Appropriate procedure codes are available to it from its FI. Procedure codes are required in order for the FI to make reasonable charge determinations when paying the hospice for physician services.

The Hospice uses the following revenue codes to bill Medicare:

Code	Description	Standard Abbreviation
0651*	Routine Home Care	RTN Home
0652*	Continuous Home Care	CTNS Home (A minimum of 8 hours, not necessarily consecutive, in a 24-hour period is required. Less than 8 hours is routine home care for payment purposes. A portion of an hour is 1 hour.

75.5 - Form Locators 43-81

(Rev. 1395, Issued: 12-14-07, Effective: 01-01-08, Implementation: 01-07-08)

FL 43 - Revenue Description

Not Required. The provider enters a narrative description or standard abbreviation for each revenue code shown in FL 42 on the adjacent line in FL 43. The information assists clerical bill review. Descriptions or abbreviations correspond to the revenue codes. "Other" code categories are locally defined and individually described on each bill.

The investigational device exemption (IDE) or procedure identifies a specific device used only for billing under the specific revenue code 0624. The IDE will appear on the paper format of Form CMS-1450 as follows: FDA IDE # A123456 (17 spaces).

HHAs identify the specific piece of DME or non-routine supplies for which they are billing in this area on the line adjacent to the related revenue code. This description must be shown in HCPCS coding. (Also see FL 80, Remarks.)

FL 44 - HCPCS/Rates/HIPPS Rate Codes

Required. When coding HCPCS for outpatient services, the provider enters the HCPCS code describing the procedure here. On inpatient hospital bills the accommodation rate is shown here.

Health Insurance Prospective Payment System (HIPPS) Rate Codes

The HIPPS rate code consists of the three-character resource utilization group (RUG) code that is obtained from the "Grouper" software program followed by a 2-digit assessment indicator (AI) that specifies the type of assessment associated with the RUG code obtained from the Grouper. SNFs must use the version of the Grouper software program identified by CMS for national PPS as described in the Federal Register for that year. The Grouper translates the data in the Long Term Care Resident Instrument into a casemix group and assigns the correct RUG code. The AIs were developed by CMS.

The Grouper will not automatically assign the 2-digit AI, except in the case of a swing bed MDS that is will result in a special payment situation AI (see below). The HIPPS rate codes that appear on the claim must match the assessment that has been transmitted and accepted by the State in which the facility operates. The SNF cannot put a HIPPS rate code on the claim that does not match the assessment.

HIPPS Modifiers/Assessment Type Indicators

The assessment indicators (AI) were developed by CMS to identify on the claim, which of the scheduled Medicare assessments or off-cycle assessments is associated with the assessment reference date and the RUG that is included on the claim for payment of Medicare SNF services. In addition, the AIs identify the Effective Date for the beginning of the covered period and aid in ensuring that the number of days billed for each scheduled Medicare assessment or off cycle assessment accurately reflect the changes in the beneficiary's status over time. The indicators were developed by utilizing codes for the reason for assessment contained in section AA8 of the current version of the Resident Assessment Instrument, Minimum Data Set in order to ease the reporting of such information. Follow the CMS manual instructions for appropriate assignment of the assessment codes.

HCPCS Modifiers (Level I and Level II)

The UB-04 accommodates up to four modifiers, two characters each. See AMA publication CPT 200x (x= to current year) Current Procedural Terminology Appendix A - HCPCS Modifiers Section: "Modifiers Approved for Ambulatory Surgery Center (ASC) Hospital Outpatient Use". Various CPT (Level I HCPCS) and Level II HCPCS codes may require the use of modifiers to improve the accuracy of coding. Consequently, reimbursement, coding consistency, editing and proper payment will benefit from the reporting of modifiers. Hospitals should not report a separate HCPCS (five-digit code) instead of the modifier. When appropriate, report a modifier based on the list indicated in the above section of the AMA publication.

Claims for home health (HH), inpatient skilled nursing facility (SNF), swing bed providers and inpatient rehabilitation facilities (IRF) enter the HIPPS code here where

applicable. RHC/FQHC encounters billed on TOBs 071x or 073x do not require HCPCS coding. The complete list of HIPPS codes for use on SNF, swing bed, IRF and HH claims can be accessed at the following Web site: http://new.cms.hhs.gov/ProspMedicareFeeSvcPmtGen/02_HIPPSCodes.asp.

FL 45 - Service Date

Required Outpatient. Effective June 5, 2000, CMHCs and hospitals (with the exception of CAHs, Indian Health Service hospitals and hospitals located in American Samoa, Guam and Saipan) report line item dates of service on all bills containing revenue codes, procedure codes or drug codes. This includes claims where the "from" and "through" dates are equal. This change is due to a HIPAA requirement.

Inpatient claims for skilled nursing facilities and swing bed providers enter the assessment reference date (ARD) here where applicable.

There must be a single line item date of service (LIDOS) for every iteration of every revenue code on all outpatient bills (TOBs 013X, 014X, 023X, 024X, 032X, 033X, 034X, 071X, 072X, 073X, 074X, 075X, 076X, 081X, 082X, 083X, and 085X and on inpatient Part B bills (TOBs 012x and 022x). If a particular service is rendered 5 times during the billing period, the revenue code and HCPCS code must be entered 5 times, once for each service date. Assessment Date – used for billing SNF PPS (Bill Type 021X).

FL 46 - Units of Service

Required. Generally, the entries in this column quantify services by revenue code category, e.g., number of days in a particular type of accommodation, pints of blood. However, when HCPCS codes are required for services, the units are equal to the number of times the procedure/service being reported was performed. Providers have been instructed to provide the number of covered days, visits, treatments, procedures, tests, etc., as applicable for the following:

- Accommodations - 0100s - 0150s, 0200s, 0210s (days)
- Blood pints - 0380s (pints)
- DME - 0290s (rental months)
- Emergency room - 0450, 0452, and 0459 (HCPCS code definition for visit or procedure)
- Clinic - 0510s and 0520s (HCPCS code definition for visit or procedure)
- Dialysis treatments - 0800s (sessions or days)
- Orthotic/prosthetic devices - 0274 (items)

- Outpatient therapy visits - 0410, 0420, 0430, 0440, 0480, 0910, and 0943 (Units are equal to the number of times the procedure/service being reported was performed.)

- Outpatient clinical diagnostic laboratory tests - 030X-031X (tests)

- Radiology - 032x, 034x, 035x, 040x, 061x, and 0333 (HCPCS code definition of tests or services)

- Oxygen - 0600s (rental months, feet, or pounds)

- Drugs and Biologicals- 0636 (including hemophilia clotting factors)

The provider enters up to seven numeric digits. It shows charges for noncovered services as noncovered, or omits them. **NOTE:** Hospital outpatient departments report the number of visits/sessions when billing under the partial hospitalization program.

For RHCs or FQHCs, a "visit" is defined as a face-to-face encounter between a clinic/center patient, and one of the certified RHC or FQHC health professionals. Encounters with more than one health professional, and encounters with the same health professional which take place on the same day and at a single location constitute a single "visit," except for cases in which the patient, subsequent to the first encounter, suffers illness or injury requiring additional diagnosis or treatment.

EXAMPLE 1

A known diabetic visits the provider on the morning on May l and sees the physician assistant. The physician assistant believes an adjustment in current medication is required, but wishes to have the clinic's physician, who will be present in the afternoon, check the determination. The patient returns in the afternoon and sees the physician, who revises the prescribed medication. The physician recommends that the patient return the following week, on May 8, for a fasting blood sugar analysis to check the response to the change in medication. In this situation, the provider bills the Medicare program for one visit. Also, it includes a line item charge for laboratory services for May 1.

EXAMPLE 2

A patient visits the provider on July l complaining of a sore throat, and sees the physician assistant. The physician assistant examines the patient, takes a throat culture and requests that the patient return on July 8 for a follow-up visit to the physician assistant. In this situation, the provider bills the Medicare program for two visits. Also, it includes an entry for laboratory.

FL 47 - Total Charges - Not Applicable for Electronic Billers

Required. This is the FL in which the provider sums the total charges for the billing period for each revenue code (FL 42); or, if the services require, in addition to the revenue center code, a HCPCS procedure code, where the provider sums the total charges

for the billing period for each HCPCS code. The last revenue code entered in FL 42 is "0001" which represents the grand total of all charges billed. The amount for this code, as for all others is entered in FL 47. Each line for FL 47 allows up to nine numeric digits (0000000.00). The CMS policy is for providers to bill Medicare on the same basis that they bill other payers. This policy provides consistency of bill data with the cost report so that bill data may be used to substantiate the cost report. Medicare and non-Medicare charges for the same department must be reported consistently on the cost report. This means that the professional component is included on, or excluded from, the cost report for Medicare and non-Medicare charges. Where billing for the professional components is not consistent for all payers, i.e., where some payers require net billing and others require gross, the provider must adjust either net charges up to gross or gross charges down to net for cost report preparation. In such cases, it must adjust its provider statistical and reimbursement (PS&R) reports that it derives from the bill. Laboratory tests (revenue codes 0300-0319) are billed as net for outpatient or nonpatient bills because payment is based on the lower of charges for the hospital component or the fee schedule. The FI determines, in consultation with the provider, whether the provider must bill net or gross for each revenue center other than laboratory. Where "gross" billing is used, the FI adjusts interim payment rates to exclude payment for hospital-based physician services. The physician component must be billed to the carrier to obtain payment. All revenue codes requiring HCPCS codes and paid under a fee schedule are billed as net.

FL 48 - Noncovered Charges

Required. The total non-covered charges pertaining to the related revenue code in FL 42 are entered here.

FL 49 - (Untitled)

Not used. Data entered will be ignored.

Note: the "PAGE ____ OF ____" and CREATION DATE on line 23 should be reported on all pages of the UB-04.

FL 50A, B, and C - Payer Identification

Required. If Medicare is the primary payer, the provider must enter "Medicare" on line A. Entering Medicare indicates that the provider has developed for other insurance and determined that Medicare is the primary payer. All additional entries across line A (FLs 51-55) supply information needed by the payer named in FL 50A. If Medicare is the secondary or tertiary payer, the provider identifies the primary payer on line A and enters Medicare information on line B or C as appropriate. Conditional payments for Medicare Secondary Payer (MSP) situations will not be made based on a Home Health Agency Request for Anticipated Payment (RAP). A = Primary Payer, B = Secondary Payer, and C = Tertiary Payer. For example: If "Medicare" is entered in Form Locator 50A, this indicates that the provider has determined based on the responses from the patient or the patient's representative or from the insurance enrollment card information that Medicare

is the primary payer. In the UB-04, there are a number of value codes to indicate various reasons and amounts associated with insurance or other payers that are primary to Medicare (e.g., Form Locators 39-41, Codes 12, 13, 14, 15, 16, 41, 42, and 43). These value codes are analogous to "Payer Codes" (A, B, D, E, F, H, I, and G respectively). When applicable, use these value codes so they are consistent with the associated payer codes (both are required).

FL 51A (Required), B (Situational), and C (Situational) – Health Plan ID

Report the national health plan identifier when one is established;

otherwise report the "number" Medicare has assigned.

FLs 52A, B, and C - Release of Information Certification Indicator

Required. A "Y" code indicates that the provider has on file a signed statement permitting it to release data to other organizations in order to adjudicate the claim. Required when state or federal laws do not supersede the HIPAA Privacy Rule by requiring that a signature be collected. An "I" code indicates Informed Consent to Release Medical Information for Conditions or Diagnoses Regulated by Federal Statutes. Required when the provider has not collected a signature and state or federal laws do not supersede the HIPAA Privacy Rule by requiring a signature be collected.

NOTE: The back of Form CMS-1450 contains a certification that all necessary release statements are on file.

FL 53A, B, and C - Assignment of Benefits Certification Indicator

Not used. Data entered will be ignored.

FLs 54A, B, and C - Prior Payments

Situational. For all services other than inpatient hospital or SNF the provider must enter the sum of any amounts collected from the patient toward deductibles (cash and blood) and/or coinsurance on the patient (fourth/last line) of this column. In apportioning payments between cash and blood deductibles, the first 3 pints of blood are treated as non-covered by Medicare. Thus, for example, if total inpatient hospital charges were $350.00 including $50.00 for a deductible pint of blood, the hospital would apportion $300.00 to the Part A deductible and $50.00 to the blood deductible. Blood is treated the same way in both Part A and Part B.

FL 55A, B, and C - Estimated Amount Due From Patient

Not required.

FL 56 – *Billing Provider* National Provider ID (NPI)

Required May 23, 200*8*. *However, the CMS may require the NPI sooner than May 23, 2008.*

FL 57 – Other Provider ID (primary, secondary, and/or tertiary)

Situational. Use this field to report other provider identifiers as assigned by a health plan (as indicated in FL50 lines 1-3) prior to May 23, 2007.

FLs 58A, B, and C - Insured's Name

Required. On the same lettered line (A, B or C) that corresponds to the line on which Medicare payer information is shown in FLs 50-54, the provider must enter the patient's name as shown on the HI card or other Medicare notice. All additional entries across line A (FLs 59-66) pertain to the person named in Item 58A. The instructions that follow explain when to complete these items.

The provider must enter the name of the individual in whose name the insurance is carried if there are payer(s) of higher priority than Medicare and it is requesting payment because:

- Another payer paid some of the charges and Medicare is secondarily liable for the remainder;
- Another payer denied the claim; or
- The provider is requesting conditional payment. If that person is the patient, the provider enters "Patient." Payers of higher priority than Medicare include:
- EGHPs for employed beneficiaries and spouses age 65 or over;
- EGHPs for beneficiaries entitled to benefits solely on the basis of ESRD during a period of up to l2 months;
- LGHPs for disabled beneficiaries;
- An auto-medical, no-fault, or liability insurer; or
- WC including BL.

FL 59A, B, and C - Patient's Relationship to Insured

Required. If the provider is claiming payment under any of the circumstances described under FLs 58 A, B, or C, it must enter the code indicating the relationship of the patient to the identified insured, if this information is readily available.

Effective October 16, 2003

Code	**Title**

Code	Title
01	Spouse
18	Self
19	Child
20	Employee
21	Unknown
39	Organ Donor
40	Cadaver Donor
53	Life Partner
G8	Other Relationship

FLs 60A, B, and C – Insured's Unique ID (Certificate/Social Security Number/HI Claim/Identification Number (HICN))

Required. On the same lettered line (A, B, or C) that corresponds to the line on which Medicare payer information is shown in FLs 50-54, the provider enters the patient's HICN, i.e., if Medicare is the primary payer, it enters this information in FL 60A. It shows the number as it appears on the patient's HI Card, Certificate of Award, Medicare Summary Notice, or as reported by the Social Security Office.

If the provider is reporting any other insurance coverage higher in priority than Medicare (e.g., EGHP for the patient or the patient's spouse or during the first year of ESRD entitlement), it shows the involved claim number for that coverage on the appropriate line.

FL 61A, B, and C - Insurance Group Name

Situational (required if known). Where the provider is claiming payment under the circumstances described in FLs 58A, B, or C and a WC or an EGHP is involved, it enters the name of the group or plan through which that insurance is provided.

FL 62A, B, and C - Insurance Group Number

Situational (required if known). Where the provider is claiming payment under the circumstances described in FLs 58A, B, or C and a WC or an EGHP is involved, it enters the identification number, control number or code assigned by that health insurance carrier to identify the group under which the insured individual is covered.

FL 63 - Treatment Authorization Code

Situational. Required when an authorization or referral number is assigned by the payer and then the services on this claim AND either the services on this claim were preauthorized or a referral is involved. Whenever QIO review is performed for outpatient preadmission, pre-procedure, or Home IV therapy services, the authorization number is required for all approved admissions or services.

FL 64 – Document Control Number (DCN)

Situational. The control number assigned to the original bill by the health plan or the health plan's fiscal agent as part of their internal control.

FL 65 - Employer Name

Situational. Where the provider is claiming payment under the circumstances described in the second paragraph of FLs 58A, B, or C and there is WC involvement or an EGHP, it enters the name of the employer that provides health care coverage for the individual identified on the same line in FL 58.

FL 66 – Diagnosis and Procedure code Qualifier (ICD Version Indicator)

Required. The qualifier that denotes the version of International Classification of Diseases (ICD) reported. The following qualifier codes reflect the edition portion of the ICD: 9 - Ninth Revision, 0 - Tenth Revision. **Medicare does not accept ICD-10 codes. Medicare only processes ICD-9 codes.**

FL 67 - Principal Diagnosis Code

Required. The hospital enters the ICD code for the principal diagnosis. The code **must** be the full ICD diagnosis code, including all five digits where applicable. The reporting of the decimal between the third and fourth digit is unnecessary because it is implied.

The principal diagnosis code will include the use of "V" codes. Where the proper code has fewer than five digits, the hospital may not fill with zeros. The principal diagnosis is the condition established after study to be chiefly responsible for this admission. Even though another diagnosis may be more severe than the principal diagnosis, the hospital enters the principal diagnosis. Entering any other diagnosis may result in incorrect assignment of a DRG and cause the hospital to be incorrectly paid under PPS. The hospital reports the full ICD code for the diagnosis shown to be chiefly responsible for the outpatient services in FL 67 of the bill. It reports the diagnosis to its highest degree of certainty. For instance, if the patient is seen on an outpatient basis for an evaluation of a symptom (e.g., cough) for which a definitive diagnosis is not made, the symptom must be reported (7862). If during the course of the outpatient evaluation and treatment a definitive diagnosis is made (e.g., acute bronchitis), the hospital must report the definitive diagnosis (4660). When a patient arrives at the hospital for examination or testing without a referring diagnosis and cannot provide a complaint, symptom, or diagnosis, the hospital should report an ICD code for Persons Without Reported Diagnosis Encountered During Examination and Investigation of Individuals and Populations (V70-V82). Examples include:

- Routine general medical examination (V700);
- General medical examination without any working diagnosis or complaint, patient not sure if the examination is a routine checkup (V709); and
- Examination of ears and hearing (V721).

NOTE: Diagnosis codes are not required on nonpatient claims for laboratory services where the hospital functions as an independent laboratory.

FLs 67A-67Q - Other Diagnosis Codes

Inpatient Required. The hospital enters the full ICD codes for up to eight additional conditions if they co-existed at the time of admission or developed subsequently, and which had an effect upon the treatment or the length of stay. It may **not** duplicate the principal diagnosis listed in FL 67 as an additional or secondary diagnosis. If the principal diagnosis is duplicated, the FI will remove the duplicate diagnosis before the record is processed by GROUPER for IPPS claims. The MCE identifies situations where the principal diagnosis is duplicated for IPPS claims.

Outpatient - Required. The hospital enters the full ICD codes in FLs 67A-67Q for up to eight other diagnoses that co-existed in addition to the diagnosis reported in FL 67.

NOTE: Medicare will ignore data submitted in 67I – 67Q.

FL 68

Not used. Data entered will be ignored.

FL 69 - Admitting Diagnosis

Required. For inpatient hospital claims subject to QIO review, the admitting diagnosis is required. Admitting diagnosis is the condition identified by the physician at the time of the patient's admission requiring hospitalization. This definition is not the same as that for SNF admissions.

FL70A – 70C - Patient's Reason for Visit

Situational. Patient's Reason for Visit is required for all un-scheduled outpatient visits for outpatient bills.

FL71 – Prospective Payment System (PPS) Code

Not used. Data entered will be ignored.

FL72 - External Cause of Injury (ECI) Codes

Not used. Data entered will be ignored.

FL 73

Not used. Data entered will be ignored.

FL 74 - Principal Procedure Code and Date

Situational. Required on inpatient claims when a procedure was performed. Not used on outpatient claims.

FL 74A – 74E - Other Procedure Codes and Dates

Situational. Required on inpatient claims when additional procedures must be reported. Not used on outpatient claims.

FL 75

Not used. Data entered will be ignored.

FL 76 - Attending Provider Name and Identifiers (including NPI)

Situational. Required when claim/encounter contains any services other than nonscheduled transportation services. If not required, do not send. The attending provider is the individual who has overall responsibility for the patient's medical care and treatment reported in this claim/ encounter.

0B - State License Number

1G - Provider UPIN Number

G2 – Provider Commercial Number

FL 77 - Operating Provider Name and Identifiers (including NPI)

G2 – Provider Commercial Number

FLs 78 and 79 - Other Provider Name and Identifiers (including NPI)

Situational. The name and ID number of the individual corresponding to the qualifier category indicated in this section of the claim.

Provider Type Qualifier Codes/Definition/Situational Usage Notes:

DN - Referring Provider. The provider who sends the patient to another provider for services. Required on an outpatient claim when the Referring Provider is different than the Attending Physician. If not required, do not send.

ZZ - Other Operating Physician. An individual performing a secondary surgical procedure or assisting the Operating Physician. Required when another Operating Physician is involved. If not required, do not send.

82 - Rendering Provider. The health care professional who delivers or completes a particular medical service or non-surgical procedure. Report when state or federal regulatory requirements call for a combined claim, i.e., a claim that includes both facility and professional fee components (e.g., a Medicaid clinic bill or Critical Access Hospital claim). If not required, do not send.

Secondary Identifier Qualifiers:

0B - State License Number

1G - Provider UPIN Number

G2 – Provider Commercial Number

FL 80 - Remarks

Situational. For DME billings the provider shows the rental rate, cost, and anticipated months of usage so that the provider's FI may determine whether to approve the rental or purchase of the equipment. Where Medicare is not the primary payer because WC, automobile medical, no-fault, liability insurer or an EGHP is primary, the provider enters special annotations. In addition, the provider enters any remarks needed to provide information that is not shown elsewhere on the bill but which is necessary for proper payment. For Renal Dialysis Facilities, the provider enters the first month of the 30-month period during which Medicare benefits are secondary to benefits payable under an EGHP. (See Occurrence Code 33.)

FL 81 - Code-Code Field

Situational. To report additional codes related to a Form Locator or to report external code list approved by the NUBC for inclusion to the institutional data set.
