

Consent Policy Design Group

2019 Scheduled Meetings

The Consent Policy Design Group is scheduled to meet for a fixed duration in 2019. The Consent Policy Design Group, created and sponsored by the Health IT Advisory Council, is composed of volunteer stakeholders from across the healthcare industry. The Design Group will conduct a broad review and analysis of existing consent policies and best practices, both within Connecticut and at the national-level, and will assess the policy implications and considerations applicable to the statewide health information exchange. All meetings will be held virtually via tele-conference and are open to the public.

Agendas, meeting materials, and updated information can be found on the Office of Health Strategy webpage: <https://portal.ct.gov/OHS/HIT-Work-Groups/Consent-Design-Group>
