

July 2018

# Connecticut State Innovation Model

## Work Stream Update

- Contracts for CCIP Wave 2 Participating Entities are currently under negotiations. Proposals for a CCIP Validation Surveyor and subject matter experts have been received and are currently under review.
- Planning for the second round of the CAHPS consumer experience survey is underway and sample files from all participating payers have been received.
- The UConn Evaluation team, in partnership with the [Quality Council](#), proposed responses to public comments on [project documents](#), including some changes to some methodologies. Engagement with healthcare organizations that is going to be included in the scorecard is ongoing prior to publishing.
- The CHW Advisory Committee held a meeting on Jul 17<sup>th</sup> with the purpose of reviewing, discussing, and identifying possible modifications to the [Report to the Legislature on Community Health Worker Certification](#). Approval was given by the members to release the report for public comment following the meeting. The public comment period will close on August 23<sup>rd</sup>.
- The consultant for the VBID initiative continued working one-on-one with 10 employers to collect data, discuss options, and develop initial recommendations for development of VBID plans. Eight employers have completed initial recommendations. Additional feedback was collected from the VBID Consortium on VBID templates and they released a [Consortium Feedback Report](#) and updated the [Fully Insured template](#) and [Self-insured template](#)
- A second round of in-person Deep Dive sessions to discuss HEC model design, asset mapping, key sectors, governance and accountability, funding and funds distribution, and other considerations were conducted with the Reference Communities.
- Prevention Service Initiative TA activities focused on facilitating partnership exploration through cross-sector and one-on-one calls. Webinars for Community Based Organizations (CBOs) were conducted on development of business plans and for health care organizations (HCOs) on development of project plans. Parameters on use of evidence-based programs for asthma and diabetes were clarified for the organization.
- Five Population Health Council Design Team meetings were held this month to work on specific topics relating to HEC governance and structure; interventions, measures, data, and workforce; and financial modeling.
- At the July meeting, the [Health IT Advisory Council](#) accepted the recommendations for the Governance Design Group, and approved new members for the Polypharmacy and Medication Reconciliation Work Group (PMR WG)
- Velatura, the contractor for HIT Service Areas 2-4, is currently engaging stakeholders with a focus to identify success factors and pain points that would impact the implementation of health information exchange services.
- The PTF, supported by the contractor for PCM, presented and reviewed skeleton capabilities, which will serve as outlines for Care Delivery components that may be recommended for inclusion in PCM. Find detailed PCM planning strategy in the [meeting presentation](#)
- The Consumer Advisory Board has provided input in PCM consumer outreach efforts to include content and venues for PCM consumer engagement. They also discussed Primary Care Modernization planning, including an overview of the Advisory Process. Find July Presentation containing the above items [here](#)

**Population  
Health Planning  
(DPH)**

- HEC planning continues- refined HEC mission and vision based on work to date; reviewed governance and structure model options; narrowed down a list of priority health conditions, root causes, measures and interventions; presented financial model results to date; continuous stakeholder engagement and input.
- Reference community second round of in-person Deep Dive sessions to discuss HEC model design, asset mapping, key sectors, governance and accountability, funding and funds distribution, and other considerations.
- PSI TA activities focused on facilitating partnership exploration through cross-sector and one-on-one calls. Webinars for CBOs on development of business plan and for health care organizations (HCOs) on development of project plan. Clarified parameters on use of evidence-based programs for asthma and diabetes.
- The Population Health Council meeting was held on July 26<sup>th</sup>. Member input was solicited on several HEC model elements, (i.e. geography, structure and governance, stakeholder engagement, prevention aims, interventions, accountability and funding)
- Five Population Health Council Design Team meetings were held this month to work on specific topics relating to HEC governance and structure; interventions, measures, data, and workforce; and financial modeling.
- Continued engagement; preview recommendations in draft HEC report, solicit population health council feedback on report
- RC community engagement; further considerations for measurement, data, and IT; work on the final report.
- CBOs and HCOs prepare to negotiate contractual agreements:
- Next council meeting on August 23<sup>rd</sup>, 2018. Host webinar for opportunity for verbal feedback on draft final report.
- Complete the Design Team meetings, review feedback and team recommendations.
