

Dear Sir. I oppose ranked choice voting. Voting should be simple. Voting only on one day, no early voting, not mail in ballots. Absentee ballots only by request for good reason. Voter registration one month before election day, time enough to vet the voter's eligibility. No electric voting machines. I support hand counted paper ballots. One legitimate vote, one voter. Ranked choice voting is too confusing. Even the ballot questions are not simply worded, they are ambiguous. Thank you, Mike Santangelo Prospect.
