

I'm Yann van Heurck, my home is in Madison CT and I want to speak for RCV. I want third parties to be heard -- they present a range of policies not part of the 2-party system we've been locked into for so long that gives people no real freedom to make change.

I've observed countries (like Britain) where there are more parties and it's easier for new voices to be heard and think it contributes greatly to democracy and gives everyone more options. We need them! -- Yann van Heurck, 32 Arbor, Madison 06443
