FROM: Mick Bolduc, Vaccine Coordinator-Connecticut Vaccine Program

DATE: February 8, 2019

SUBJECT: Influenza Formulations for 2019-20 Flu Season

The primary purpose of this communication is to inform you of the influenza formulations the Connecticut Vaccine Program (CVP) will be providing during the 2019-20 flu season.

Influenza Formulations

Once again for the 2019-20 flu season the CVP will be providing influenza vaccine for all children 6 through 59 months of age regardless of insurance status as well as vaccine for all VFC-eligible 5-18 year old patients. All vaccines offered will be quadrivalent preservative-free formulations.

As soon as influenza vaccine becomes available (likely sometime in August) you will be notified that you can begin placing your flu orders. We will do our best to fill the orders as completely as possible but the majority of influenza vaccine is not expected to be available until September and October.

Affirmative Action/Equal Opportunity Employer

Below is a list of the flu formulations we will be supplying this upcoming influenza season. Please make note that both GSK's FluLaval® and Sanofi's Fluzone® are now licensed for administration to patients 6 months of age and older so beginning with the 2019-20 influenza season the CVP will no longer be offering any .25mL influenza formulations.

Vaccine	Package	Dose	Age	Preservative Free	NDC #	CPT Code
Fluzone (Sanofi)	Single dose Quad. Syringe (10 per pack)	0.5 mL	6 months and older	YES	49281-0419-50	90686
FluLaval (GSK)	Single dose Quad. Syringe (10 per pack)	0.5 mL	6 months and older	YES	19515-0906-52	90686
FluMist (AstraZenaca)	Single dose Quad. Sprayer (10 per pack)	0.2 mL	2 years and older	YES	TBD	90672
Flucelvax (Seqirus) Egg-Free	Single dose Quad. Syringe (10 per pack)	0.5 mL	4 years and older	YES	70461-0319-03	90674

As always, if you have any questions, please feel free to contact me at (860) 509-7940.
