

CONNECTICUT LAND MOBILE RADIO NETWORK

Technical Advisory Bulletin

SUBJECT: SUBSCRIBER EQUIPMENT

DISCUSSION: CLMRN supports a number of different subscriber options. Ultimately, the decision of which subscriber to purchase is up to the end user based on their requirements and budget.

Subscribers must use only approved firmware and software.

REQUIREMENTS¹

MANUFACTURER	REQUIREMENT
Non Specific	P25 Common Air Interface
Non Specific	P25 9600 Baud Trunking
Non Specific	TDMA Operation
Non Specific	Multi-Site Roaming (if applicable)
Non Specific	Minimum 512 Mode Operation ²
L3Harris	Conventional Fall Back
L3Harris	Multigroup

¹ Reminder that the radio MUST meet CAP requirements for operating on a Motorola Solutions P25 trunked radio system

² Reminder that it is mandatory to have the entire interoperability template in the radio

SECURITY

MANUFACTURER	REQUIREMENT
Non Specific	Hardware ONLY system key dongle
Non Specific	P25 Link Layer Authentication
Non Specific	AES256 with OTAR/Multikey- IF PURCHASING ENCRYPTION

QUESTIONS? p25@ct.gov

MOBILE/CONTROL STATION RADIOS (10/17/23)

MANUFACTURER	MODEL	OTAP	OTAR	COMMENTS
EFJohnson	VM600	X	X	No longer available from EFJ
